Deferred - Payment Gift Annuity

Much like the charitable gift annuity, the Deferred Payment Charitable Gift Annuity is part gift and part annuity. The difference is, rather than the donor or the donor and another person receiving payments immediately, they are deferred until a specific date in the future – as determined by the donor. This gives the principal time to grow, which will ultimately result in larger payments for most people. The donor is entitled to a charitable income tax deduction when the Deferred Payment Charitable Gift Annuity is established.
